

## **Getting a clear visual of data visualization**

### **Visit three places that you might want to study or do homework on campus**

1. South College
2. W.E.B. Du Bois Library
3. John Quincy Adams Hall

#### **W.E.B. Du Bois Library**

- 4.5/5 Stars

The library at UMass is my number one study spot. With 28 floors, it offers a variety of books and a diverse range of study environments. Different floor types, from quiet study floors to more talkative floors, so you can find an environment that fits you. The only negative thing is that during the middle of the day, the library can become overcrowded, and it can be hard to find good seats, especially tables if you are studying with someone else.
